

FOR HIGH VOLUME, HIGH MIX PCB PRODUCTION

EAGLE

MTS 180

- > Up to 3,456 pins at 5,500 N
- > Economical fixture solutions
- > Double side testing
- > Interface for fast exchange of fixtures
- > Analog and digital in-circuit test (low voltage technology), functional test, end-of-line test, Boundary Scan
- > Vectorless test
- > Available as Lambda Edition for real parallel testing

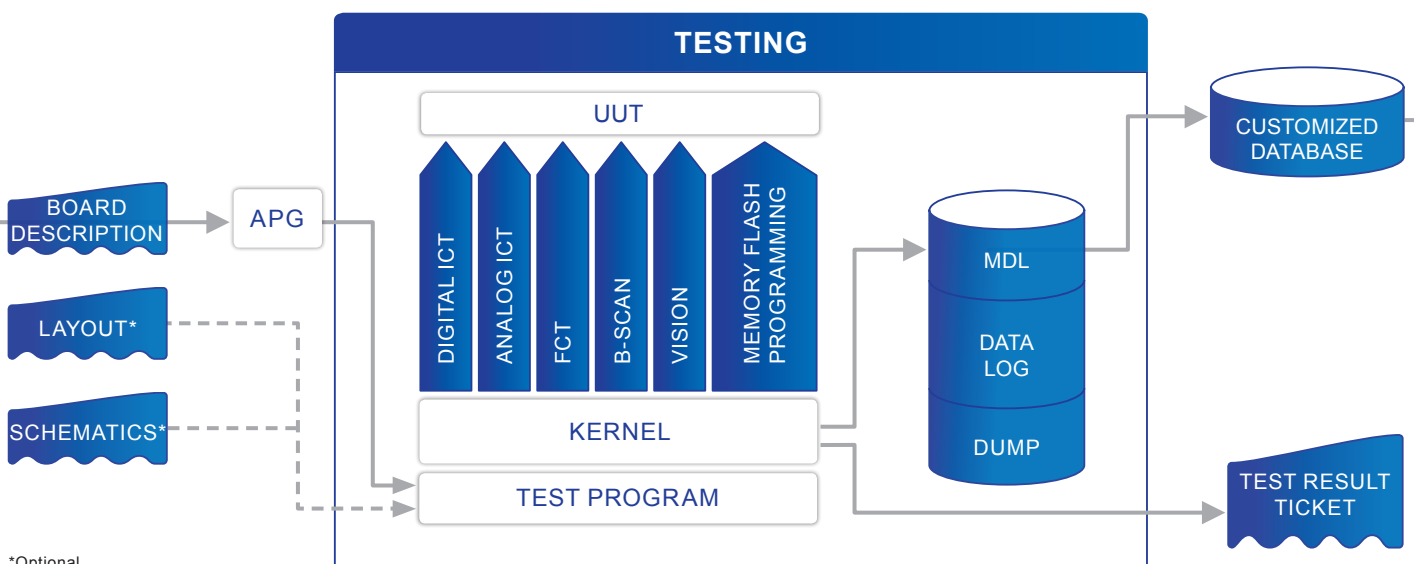

The Eagle offers low testing cost for high volume with even the most complex fixture applications.

CITE

COMPUTER INTEGRATED TEST ENVIRONMENT

*Optional

EAGLE HARDWARE BASIC SYSTEM

Footprint	1000 mm width x 1700 mm height x 860 mm depth
Controller	Industrial standard PC
ICT measurements (AMU)	4 quadrant measurements
Guard ratio	1:1000
3 voltage sources	(AC/DC) 0 - 100 V
Voltage frequency	DC to 100 kHz
Current	Up to 250 mA
Measurement	
Voltage	(AC/DC) up to 100 V
Current	(AC/DC) up to 100 mA
Resistors	0.1 Ohm - 100 MOhm
Capacitors	1 pF to 100 mF
Inductors	10 µH to 10 H
Kelvin measurement	
Diode and zener forward and backward direction up to 100 V	
Transistor, optocoupler etc. active test	
6-wire reed relay matrix (MUX)	

ANALOG OR HYBRID SYSTEM

Analog ICT	Up to 3456 channels in steps of 128
Hybrid digital driver/sensors	Up to 3456 in steps of 64/128
Input/output	±10 V in 20 mV resolution
Max. current	±500 mA (backdriving) or 50 mA for static D/S operation
Tristate-capable	
Automatic driver-monitoring	
Logic levels programmable per pin	

HARDWARE OPTIONS

Programmable power supplies (UPC)	
Voltage resolution	2.2 mV
Accuracy	20 mV
Current limit resolution	2.5 mA
Accuracy	±50 mA
Short-circuit monitoring via software and hardware	
Software-controlled on/off switching	
Separate force and sense lines	
Thermal shutdown	
UPC02-09	9 V / 10 A
UPC02-24	24 V / 5 A
UPC02-45	45 V / 3.5 A
Frequency/time measurement card (MTC)	
Up to 100 MHz	
DC/AC source and measurement card (MSM)	
Additional precise U/I signal sources (floating)	
Additional precise U/I measurement (floating)	
FailSim	
Verification of test program quality	
External modules	
For example IEEE, PXI, USB, RS232, CAN, LIN and much more	

CITE TEST SYSTEM SOFTWARE (INCLUDED)

Program development	Automatic Program Generator (APG) generating test program using board description (manual or automatic generation). Library for analog and digital IC's. Functional test enhancements using Menu Aided Programming (MAP). Test program code language based on Visual Basic (VB) 6, VB .NET and/or table based GenFast. Translation of test programs from common test systems and all MTS test systems. Recording test results (failing data and/or complete measurement results) to use for repair and traceability.
Program debugging	Powerful debugging using table based GenFast (mainly for analog ICT) and/or all functionality provided by Visual Basic 6 and VB .NET. Single step mode execution available. Debug window for displaying measurement results. Possibility to make changes to all command parameters and directly seeing their impact. Layout viewer, schematics viewer (optional), highlighting failing component to support debug work.
Selftest	Checks the hardware of test system and localizes faulty modules (diagnosis down to relay-level).
QCAM (teststability report)	Reports the stability and quality of a test program. Makes debugging easy and efficient.

SOFTWARE OPTIONS

C-LINK Design to Manufacturing Software	Automatic generation of fixture-data, net lists, parts lists, layout data etc.
QMAN Quality Management Software	Paperless repair, statistics, quality data management, fault catalogue.
Boundary Scan	Boundary Scan software integration: development, execution and diagnostics.
LabView and TestStand	Link to National Instruments LabView or TestStand available.

Company

Digitaltest is a strong partner of the electronics industry and has more than 35 years of experience in development, implementation and support of automated test equipment (ATE) for printed circuit boards. The complete product portfolio of the global company includes hardware technology, software to automate the production and evaluate the production process with its quality management software.
